

**American Geophysical Union Session
Applications of Remote Sensing to Sustainable Agriculture, Range, and Forestry
Call for Presentations**

On behalf of the Upper Midwest Aerospace Consortium, Rick Lawrence, Montana State University, and George Seielstad are organizing a session on "Applications of Remote Sensing to Sustainable Agriculture, Range, and Forestry" for the annual meeting of the American Geophysical Union.

A description of the session is available at

<http://www.agu.org/meetings/fm07/?content=search&show=detail&sessid=169>

Please consider making a presentation during this session.

Relevant information follows:

- 1) The specific date of the session will not be determined until an AGU organizers' meeting Sept. 26-28. The AGU annual meeting is scheduled for Dec. 10-14 in San Francisco.
- 2) Annual membership in AGU is only \$15. There is an abstract submission fee and a meeting registration fee.
- 3) Whether the session is oral, poster, or both depends on the number and quality of the abstracts submitted.
- 4) Outstanding PhD students are welcome to submit abstracts.
- 5) Presenters submit their own abstracts, but Rick Lawrence (406-994-5409, rickl@montana.edu) and I (701-777-4755, gseielst@aero.und.edu) would appreciate being notified that you have submitted one. We may be contacted with questions.
- 6) Deadline for abstracts is 6 September 2007, 23:59 Universal Time. First author must be an AGU member, or be sponsored by one. Membership dues must be paid by August 20 in order to submit an abstract.
- 7) Full guidelines for abstract submission are at <http://www.agu.org/meetings/fm07/>. You cannot submit by fax or e-mail. We cannot submit for you. Submission of an abstract carries the obligation to present the paper at the meeting.
- 8) The session is B13: Applications of Remote Sensing to Sustainable Agriculture, Range, and Forestry. The B stands for Biogeosciences, one of several AGU categories.
