

## Faculty Positions in Earth System Science and Policy

University of North Dakota

The Northern Great Plains Center for People and the Environment at the University of North Dakota invites applications for multiple faculty openings in its Department of Earth System Science and Policy. Successful candidates will be expected to work across disciplinary boundaries in a collegial environment. The Center's vision is to provide benefits to society leading to a prosperous and sustainable future (see <http://www.umac.org>). Accordingly faculty who have skills for engaging the general public are welcome.

**Faculty Position(s) in Earth System Policy:** The general area of expertise sought is the Nature-Human interface. Successful candidates will help unify social aspects of sustainability, such as economic security, ecological integrity, and societal justice and equity. Specializations can be in an appropriate social science, economics, environmental policy and management, law, cultural influences on environmental issues, communications, public health, or related field.

**Faculty Position(s) in Earth System Science:** Successful candidates will have exceptional records as interdisciplinary scientists and educators, and will be creative in linking academia with practice. Strong candidates will wish to take advantage of NGP CP&E's unique remote sensors. Evidence of remote sensing experience will be valued. Preference will be given to those whose strengths are hydrology or biogeochemistry. However, the Center will welcome applicants from any area that builds on existing strengths in biodiversity, climate change, renewable energy, or other fields related to sustainability.

Candidates must have a PhD or equivalent terminal degree, thrive in an interdisciplinary environment, and be capable of planning and executing collaborative projects. Positions are full-time, 12-month, non-tenure track. A successful history of external funding is a strong advantage. Responsibilities include serving the public and the academic community, undertaking significant scholarly activity, teaching at the graduate level, and advising and supervising students. To apply, send a cover letter describing potential contributions, CV, statement of past and future research, statement of teaching interests and philosophy, history of external support, and three reference letters to:

Dr. Karen Katrinak, Administrative Aide  
Northern Great Plains Center for People and the Environment  
University of North Dakota  
Clifford Hall Room 300  
4149 University Avenue Stop 9011  
Grand Forks, ND 58202-9011  
[katrinak@umac.org](mailto:katrinak@umac.org)  
Tel. (701) 777-2482 / Fax (701) 777-2940

Review of applications will begin immediately and will continue until suitable candidates are found. The University of North Dakota is an Equal Opportunity/Affirmative Action Employer.
